Technical Product Manager • Technical Program Manager • AI/Data Products • APIs • Cloud • Salesforce CRM • Analytics
Available to Start Full-Time Immediately

PROFESSIONAL SUMMARY

Technical Product Manager / Technical Program Manager with experience in AI-powered systems, data science, analytics, API integrations, edge-cloud platforms, and E2E cross-functional product delivery. Completed a one-year Associate Product Manager co-op at SpectrumVoIP, supporting 50+ AI system deployments, KPI dashboards, and product monitoring workflows. Strong foundation in Applied Machine Learning, Predictive Analytics, Prescriptive Analytics, Advanced Statistics, Database Systems, and Business Modelling. Brings 6+ years of international B2B sales and operations experience across 25+ countries. MS Business Analytics and Artificial Intelligence graduate from UT Dallas and available to start full-time immediately.

EDUCATION

The University of Texas at Dallas – Richardson, TX May 2026
Master of Science, Business Analytics and Artificial Intelligence GPA: 3.78
JSOM Dean's Excellence Scholarship | ECLAT Excellence Scholarship

Nanchang Institute of Technology – Jiangxi, China June 2017
Bachelor of Arts, International Business GPA: 3.50
Awarded National Scholarship of China (2014 and 2016) and National Student Grant of China (2015)

PROFESSIONAL EXPERIENCE

Associate Product Manager (Co-op) | SpectrumVoIP | Plano, TX Jun 2025 – May 2026

- Led deployment and productization of 50+ AI-powered edge-cloud systems across distributed industrial environments, integrating IP networking, Starlink connectivity, APIs, analytics platforms, and hardware-connected systems.
- Defined and prioritized 50+ product requirements, PRDs, user stories, and technical specifications, translating business, customer, and operational needs into roadmap priorities and execution plans across engineering, ML, DevOps, and field operations teams.
- Built KPI frameworks and executive dashboards in Power BI, standardizing 20+ operational metrics across system uptime, deployment readiness, alert performance, call-level analytics, and product monitoring.
- Partnered with DevOps to develop SQL/Python/MySQL-based analytics workflows, improving data visibility, reporting accuracy, and operational decision-making across product and engineering teams.
- Coordinated cross-functional execution across product leadership, engineers, field technicians, vendors, and customer-facing teams to streamline API integrations, IP configuration, technical documentation, and deployment workflows.
- Supported system monitoring, alerting, performance tracking, and continuous product improvement using real-world operational data to improve reliability, reduce deployment ambiguity, and inform feature prioritization.

Sales Manager | Shanghai Shenhu Packaging Machinery Co, Ltd. | Shanghai, China Dec 2018 – Aug 2023

- Directed global B2B sales operations across 35+ countries, exceeding annual revenue targets by 15% while managing a portfolio of 500+ international enterprise clients.
- Leveraged Salesforce CRM, Tableau, and Excel analytics to manage pipeline visibility, customer records, opportunity tracking, sales forecasting, and CRM reporting across 500+ international B2B clients and 1000+ cross-border transactions.
- Led cross-functional collaboration with logistics, finance, engineering, and customer service teams to streamline contract execution and ensure 100% adherence to international trade regulations.
- Negotiated high-value international agreements and strengthened long-term client partnerships across multi-market regions.

Sales Supervisor | Shanghai Bobang Signage Co., Ltd. | Shanghai, China Dec 2016 – Dec 2018

- Supervised international sales activities across 40+ countries, supporting team execution and contributing to 30% above-target sales growth during a key performance period.

- Led customer engagement for 10+ domestic advertising signage exhibitions in Shanghai, Guangzhou, and Chengdu, managing invitations, reception, and follow-up for 70+ key customers through calls, emails, and social media outreach.
- Conducted on-site customer and factory visits in Australia and Vietnam, presented signage/OEM product solutions to key decision-makers, and secured additional purchasing agreements.

TECHNICAL SKILLS

- **Data Science and Modeling:** Predictive Modeling, Prescriptive Analytics, Applied Machine Learning (AML), Advanced Statistics, Statistical Analysis, Time Series Analysis, Econometrics, Causal Analytics, A/B Testing.
- **Databases and Cloud Platforms:** PostgreSQL, MySQL, MongoDB, Cloud Data Warehousing, Snowflake, AWS, Azure, JSON, Postman, ETL Pipelines, REST APIs.
- **Product and Program Management:** Product Roadmapping, PRD Development, User Stories, Acceptance Criteria, Requirements Gathering, Salesforce CRM, Agile/Scrum, Jira, Stakeholder Management, Cross-Functional Execution, End-to-End Product Delivery, Technical Documentation
- **Visualization and Reporting:** Power BI, Tableau, Advanced Excel, Executive Dashboards, KPI Reporting, Data Storytelling, Business Intelligence.
- **Systems and Infrastructure:** Edge-Cloud Architecture, IP Networking, IP Camera Systems, Router Configuration, System Monitoring, Operational Analytics, Hardware-Software Integration.
- **Business and GTM:** CRM Analytics, B2B Sales Operations, Customer Success, Vendor Coordination, Supplier Management, Forecasting, Pricing Analysis, Financial Modeling, International Business Operations.
- **Languages:** Mandarin Chinese (Native), English (Professional), Japanese (Conversational).

SELECTED PROJECTS

Client Analytics and Product Strategy Project — Conagra Brands (NDA-Compliant) May 2026

- Selected Top 8/40 teams to present to Conagra executives; analyzed 400K+ POS records, 2,500+ SKUs, and multi-year consumer datasets to identify key growth constraints
- Built and validated a multi-model framework (regression, panel, quantile, ML) to quantify demand drivers and define a scalable growth system across distribution, acquisition, retention, and revenue
- Synthesized consumer and market insights to deliver actionable recommendations improving distribution, retention, and promotional effectiveness, translating analytics into executive strategy in an NDA-restricted environment

Compliance Shield (AWS Hackathon) | 2nd Place at the 10th Annual Analytics Symposium, UTA Mar 2026

- Built and delivered an AI-driven regulatory intelligence product using RAG-based architecture to generate automated compliance insights from complex regulatory frameworks.
- Designed scalable data pipelines (structured and unstructured) leveraging cloud services, enabling evaluation of AI risk exposure, governance gaps, and regulatory vulnerabilities.
- Selected as the only UTD team to present product strategy and system architecture, demonstrating strong product thinking and technical execution.

LEADERSHIPS

Vice President of Events – UTD JSOM Graduate Dean's Council, Richardson, Texas Mar 2025 – May 2026

- Lead large-scale institutional programming serving 3,000+ graduate students and alumni annually, overseeing flagship initiatives including JSOM Alumni Reunion, Owlle Awards, Meet the Dean, and university-wide 5K events.
- Direct end-to-end strategic planning, budgeting, vendor partnerships, and cross-functional leadership teams, delivering high-impact events with 100% on-time execution and measurable engagement growth across academic programs.
- Designed and standardized scalable tabling, outreach, and promotional frameworks, increasing student participation and institutional visibility by 25% across recurring campus initiatives.

VPPR | Texas Dragon Toastmasters Club | CIE/USA DFW Chapter Feb 2025 – Present

- Directed regional multi-platform communications strategy (websites, newsletters, social media), increasing digital engagement by 35% and expanding community reach to 500+ members and stakeholders.
- Implemented structured content calendars and branding workflows that contributed to a 30% increase in event participation and sustained membership growth.
- Served as Volunteer Chair for the Youth English Speech Contest, leading 100+ volunteers and coordinating large-scale event operations serving 500+ participants and families annually.
